Subject: Malibu PCBs

Hello Steve and Jeff:

Would you kindly give me an update on where the EPA is at with the Malibu situation.

Has the district submitted any documents to you ( last I saw was Aug/ Sept from Jan Maez), and if so would you please forward them to me immediately.

In addition, I am still waiting for a response from you regarding the independent tests sent to you of PCBs over 50 ppm. Those are in violation of the law and have to be removed. What is the agency going to do about it?

Would you kindly respond within the next 24 hours.

Thank you and happy holidays!

Jennifer
